

BRONSON'S
VEGETABLE PANACEA.
THE subscriber informs the public, that he has just completed the mixture of this valuable medicine. He takes pleasure in stating that he has made use of this PANACEA, successfully in a case of Scrofula, which he has been afflicted with more than three years. On several occasions he applied to practical Physicians for aid, (North and South,) and received no benefit. He was, at length, prevailed upon by numerous acquaintances, to try the virtue of certain ROOTS and HERBS; and believing, that the Receipt would greatly benefit him, he took it, together with an old French Receipt: from which is manufactured the VEGETABLE PANACEA.

It is proper here to say, that the quality of some, or all the principal Roots, are well known to the Medical Faculty, by whom they are frequently used. For Scrofula or King's Evil, Ulcerated Sores, general diseases of the BLOOD, or the effects of Mercury; it has a decided salutary effect.

For Bowel Complaint he would also recommend the use of the VEGETABLE PANACEA. Children are frequently attacked with this complaint: especially when teething. A few doses of the PANACEA will check the Bowels, and they become regular again. It has been tried by a great number of respectable individuals, and pronounced a "certain cure." He has tried it at different times in his own family, and it relieved the child immediately.

This Medicine is simple in its operations; and has a pleasant taste.

Give it a trial, and judge its worth.

The subscriber will keep a constant supply of the PANACEA at the different Drug Stores throughout the United States. Orders addressed to the subscriber, or to James R. McKain, will be promptly attended to. The PANACEA may always be had at J. R. McKain's Drug Store, Camden, S. C.

PRICE 75 CENTS per bottle.

PROSPECTUS
OF THE
Camden Commercial Courier.
THE Establishment of the COMMERCIAL COURIER was rendered necessary by the inconvenience to which our citizens have been subjected for the want of a public channel of communication which in a commercial community like Camden, is essentially necessary, and consequently the COURIER'S claim on the public is such as should ensure a liberal patronage.

The undersigned have spared no trouble or expense in obtaining the best workmen in order to render the Paper all the advantages that it will admit of, and affording satisfaction to its patrons.

In political matters the Courier will take no part; the design being to publish a Paper adapted to the interest of ALL, which could not be effected by its entering into the arena of Politics—it will be confined principally to such matters as appertain to Commerce, Agriculture and Amusement.

The COURIER is published every Saturday morning at Three Dollars in advance, or Four Dollars if not paid until the expiration of the year.

Persons wishing to become subscribers must address a letter (post paid) to

L. M. JONES & Co.
Camden, S. C. May, 1837.

POSTPONEMENT OF THE DRAWING OF THE
Splendid Scheme of the ALEXANDRIA
LOTTERY, Class E, (Highest Capital \$75,000)
from the 27th of May to the 23d of September next.

From the general embarrassment of the times; the deranged state of the domestic exchanges, and the difficulties attending the disposal of Bank Bills out of their immediate circles of issue, we have been solicited by agents and Venders to postpone the drawing of the above scheme, for a short time, until the present crisis in the affairs of the country shall have passed away.

We have therefore yielded to these solicitations, and postpone the drawing of the Alexandria Lottery, CLASS E, from the 27th of May, to the 23d day of September next, when the drawing will positively take place.

Adventurers having purchased tickets in said class, and who do not wish to hold them until the drawing, can have their money returned by the agent or broker from whom they purchased—or can exchange them for tickets in classes to be drawn at an earlier day, as it may suit their pleasure.

The Managers have consented to this postponement with extreme reluctance, as it has always been their policy to draw every scheme at the time announced. The unparalleled state of the country, is the only cause of this one departure from the usual custom.

All the other schemes now before the public, will be punctually drawn on the days announced.

D. S. GREGORY & Co. Managers.
Washington City, May 13, 1837.

Dry Goods!

THE success of the SOUTHERN TONIC is unprecedented. It has been anxiously sought after by all persons in every part of the United States, and its widely extended distribution has been owing to the many requests received from every section of the South and South West. Although it originated in an obscure part of the country but a few years since, it is now found in all the principal towns and villages in the Union, and its virtues as a cure for Ague and Fever, and as a general Tonic, are appreciated by all who have used it. Being as it professes a compound of Southern Vegetables, it is needless to offer the assurance that there is no Arsenic, Mercury, nor anything in the least hurtful to the human constitution in it. It will be found a valuable Medicine in all cases of Dyspepsia and disorganised Stomach and Bowels and patients convalescing from Bilious Fever, will derive the most important benefits from the use of the Southern Tonic. It may be administered to children and infants of the most tender age with the utmost safety. Prepared by Coster and Coxe at their Laboratory, at Montgomery Alabama. For sale by their appointed agent, JAMES R. M'KAIN.

June 3 1 tf

To the Courier Patrons.
WE take this method of informing our patrons that all Job work and Advertisement accounts will be made out, and presented for payment Quarterly.

Persons living out of the State, who send Advertisements and Job-work, are requested to state, who, and where their accounts are to be sent for payment.

The relations and friends of Mr. THOMAS TILLERY, would be happy to hear from him. He formerly resided in Autauga county, Alabama, in the vicinity of Washington, in that state. Any person who will be kind enough to give any information, whatever of him, addressed to F. S. Bronson, in Camden, S. C. will be cordially received and acknowledged as an act of kindness by an aged mother, and numerous relatives and friends. He is a native of this State.

Editors in Alabama and other States who will publish the above, will confer a great favor; and will oblige many relatives, and a distressed mother.

NOTICE.—The new Steamboat Company beg leave to inform the public that they are having a boat built in Baltimore of a light draught of water, for the express purpose of plying betwixt Camden and Charleston, and to be here early in Sept. It is confidently believed that she will be able with ease to navigate the Wateree at any stage of the river. Merchants and others from the upper country, will find it to their interest to have their goods and produce sent through this channel, as the freights will be reasonable,—in no case whatever, will any additional charge be made for lighterage, nor any exertions or expense wanting to ensure regularity and despatch. She will ply in conjunction with the new steamer "Camden," whose success this last season has put the navigation of the Wateree by steam beyond a doubt. Both boats will be able to accommodate passengers comfortably, being neatly fitted up, with the ladies and gentlemen's cabins distinct and separate.

BENJ. GASS,
Agent New-S. B. Company.

June 24 8 9t
The Charlotte Journal and Salisbury Watchman will insert the above once a week for two months and forward their bills to this office.

JONES' PATENT COTTON GIN.
THIS Gin can be made double, or single. If made double, they reduce labor, and gin just double the quantity of cotton over the single cylinder Gin, no other kind having been in use previous to this patent; and whether single or double, they are found to improve the quality of the cotton, by more perfectly cleaning it. They can be made to contain from 20 to 160 saws in a stand, and whether small or large, one hand will be sufficient to attend them. The Gins have mechanical feeders and hoppers attached to them, which free the cotton from leaves, trash, dirt, &c. before it can reach the saws, and by the thorough hawking operation it receives from the feeders, which make two revolutions to one of the saws, it is almost in a half gined state, before it descends to the saw. By a very simple arrangement of a screw to each set of grates, on which the hoppers rest, and through which the teeth of the feeders pass, they can be made to feed slow or fast to suit the condition of the cotton at the time. When made double, the saws are placed on two sets of cylinders and turn upon each other in opposite directions, and are cleaned by two sets of brushes that have four revolutions to one of two saw. The two cylinders can be detached so as to enable the planter to run one or both at pleasure, although embraced with feeders. &c. in one stand. The whole is put in operation with a drum and band, as in the ordinary Gin, and may be propelled by horse, steam, or water power. It may also be propelled by iron running gear. The force required to work it, is about the same as that necessary to move an equal number of saws in the common Gin. This Gin has been put in operation in New Orleans for two or three weeks, and its success tested in the presence of a large number of planters, merchants and others, and received their general approbation.

Several gentlemen have been so kind as to give the Patentee their written opinion respecting the merits of the Gin. A number of others could be added, but the following are deemed sufficient:
New Orleans, Feb. 27, 1837.
Dr. A. Jones—Sir, In reply to your enquiry, what I think of your improved Cotton Gin, I have to say, that I saw it work on Saturday the 25th inst. and was very much pleased with its performance. The mere fact of its self-feeding, seems to me to be a very valuable improvement; and besides, the quality of the cotton, as it comes out of the process, appeared to me to be better and cleaner than from the common Gins in use, and that it saves considerably in labor. Respectfully, &c.
E. D. WHITE.

From Mr. J. Compton, a wealthy planter, resident in the Parish of Rapide, Louisiana.
Dr. Jones—Dear Sir, I have examined your Patent Cotton Gin, with feeders, &c. And have seen it in operation, and approve of it so highly, that I have taken the liberty of ordering one for my plantation in time for the next crop.
Yours respectfully,
New Orleans, Feb. 28, 1837. J. COMPTON.

From Mr. A. Longer, an experienced and eminent Cotton Broker of New Orleans.
New Orleans, Feb. 28, 1837.
Dr. Jones—Dear Sir, In answer to your note of this morning, I will state, that I have carefully examined your new Patent Cotton Gin, and have found it far superior to those generally used in this

State it cleans the cotton much better, and gives it a much better appearance. I hope, for the good of the country, it may become duly appreciated.
Yours sincerely,
A. LONGER.

From Messrs. Forestall, High & Co. Commission Merchants.
New Orleans, March 1, 1837.
Dr. A. Jones—Dear Sir, we have examined the sample of cotton left with us, cleaned by your Patent Cotton Gin, and also the cotton in its uncleaned state, and pronounce the same greatly superior to the average samples which have come under our observation this or preceding seasons.
Very respectfully, your ob't servants,
FORESTALL, HIGH & Co.

New Orleans, March 7, 1837.
From Col. Harris Smith Evans, a planter of Wilcox county; signed also by Dr. David J. Means, a planter of Green county, and Mr. Wm. C. Clifton, a planter of Dallas county, all of Ala.
Dr. Jones—Dear Sir, In reply to your inquiry concerning your inquiry concerning your new Patent Cotton Gin, we deem it no less a pleasure than a duty to say to you, emphatically, that we consider it a most decided and valuable improvement. We have examined it carefully and seen it in successful operation, and we feel no hesitancy in recommending it to the attention of planters generally. Most respectfully yours, &c.
HARRIS SMITH EVANS,
DAVID J. MEANS,
WM. C. CLIFTON.

New Orleans, March 7, 1837.
P. S.—As a further testimony of my confidence in the success of your Gin, you will please order two Double Gins of 80 saws in a stand each, for my plantation, and oblige yours truly,
H. S. EVANS.

As a further proof of my confidence in your Gin, you will please order me a Double Gin, of the same size, for my plantation, and oblige yours respectfully,
D. J. MEANS.

Mr. Clifton also stated, that if he had not just before bought two new Common Gins, that he would likewise have ordered one or two of the Patent Gins for his plantation.

From Mr. H. F. McKenna, of the house of Brander, McKenna & Wright, of New Orleans.
Dr. A. Jones—Dear Sir, in reply to your note, accompanied by a specimen of the cotton ginned by your Patent Gin, I beg leave to observe, that it exhibits a decided improvement on the usual process of ginning; delivering the staple unjured and free from nap or trash, clean and of good color; thereby giving the article an additional value. These favorable impressions of the advantages of your Patent Gin, have been confirmed by subsequently witnessing it in operation. The utility of the double cylinders and saving of labor, will be readily perceived and properly appreciated by the intelligent planter.

Feeling a deep interest in the success of all improvements tending to benefit the important staples of our country, I trust that yours will meet with the encouragement it justly merits.

Very respectfully, your ob't serv't,
H. F. M'KENNA.

New Orleans, March 6, 1837.
From Mr. G. Senior, a Machinist of New Orleans.
Dr. A. Jones—Dear Sir, in answer to your inquiry of my opinion of your Patent Cotton Gin, I beg leave to state, that I was fifteen years engaged in the cotton factories of Manchester, England, and during four years of that time, I was foreman in the house of Messrs. Lewis, Williams & Co., and near five years spinner in the house of Messrs. Sandford & Greene. I have seen your Cotton Gin in operation, and have examined the cotton ginned by it, and pronounce it better cleaned, and the staple less injured, than any cotton that ever came under my observation. It is completely ready for the breaker without the aid of the blower, and would, therefore, save the first process in manufacturing the article. I consider cotton cleaned by your Gin, would command from one to two cents on the pound more than the average crops brought into the Manchester market, and cleaned by common Gins. Yours, very resply.
N. Orleans, March 9, GEORGE SENIOR.

Dr. Jones—Dear Sir, in answer to your inquiry respecting my opinion of your Patent Cotton Gin, I have to state, that I have been engaged in putting up the Carver Gins for planters on Red River, and that I have seen your Gin in operation, and have examined the quality of the cotton produced by it; I consider it equal if not superior to the Carver Gins; in addition to which, I think your feeders a decided improvement, and by the aid of which, the quality of the cotton cleaned appears much improved, over that produced by the common Gins. Yours &c. S. BENNETT.

New Orleans, March 10, 1837.
In addition to the above, the Patentee will refer planters to the following gentlemen, who have either seen the Gin in operation, or have examined samples cleaned by it: Messrs. N. & J. Dick, Thomas Barrett & Co., Hagan, Niven & Co., Lambeth & Thompson, Martin, Pleasants & Co., Hermann, Briggs & Co., Wm. L. Flower, Bullitt, Ship & Co.

ORDERS RECEIVED FOR
Jones' Patent Cotton Gin.
By the Patentee, No. 53 Magazine st. New-Orleans
To be manufactured in New York, by Robert Hoe, & Co.

SCALE OF PRICES.
DOUBLE GINS.
For a Double Gin of 80 saws or more on each cylinder, making 160 saws in the stand, with feeders, bands, &c. at \$6 per saw, or \$960 00
For a Double Gin of 60 saws on a cylinder, or 120 saws in the stand, feeders, &c. at \$6 per saw, or 720 00
For do. of 40 saws on do, or 80 saws in a stand, at \$6 25 per saw, or 500 00
For do. of 20 saws on do, or 40 saws in a stand, at \$6 50 per saw, or 260 00

SINGLE GINS.
For a Single Gin of 80 saws or more, with one set of feeders, bands, &c. at \$6 per saw, 480 00
For do. of 60 saws, with feeders, &c. at \$6 50 per saw, 390 00
For do. of 40 saws, with feeders, &c. at \$6 75 per saw, 300 00
For do. of 20 saws, with feeders, &c. at \$7 50 per saw, 150 000

Extra teeth where desired, for feeders, supplied at 40 cents each; the number of teeth being about equal to the number of saws. One set of feeders, it is considered however, will wear out two or three sets of saws. Extra saws supplied at 80 cents each.

The Gins ordered will be delivered to the agents of planters in any of the sea port towns of the cotton planting States, at the above prices, the agents paying the freight on the same from New York, and becoming responsible for the amount of the Gin.

It is desirable, when planters give orders for Gins, they should accompany them with their views in regard to the arrangement of saws, breasts, brushes, &c. It is found they differ in opinion. Some desire saws of larger diameter than others. The most common size is 9 or 10 inches; but some wish them 12 inches. Some wish 5 or 6 rows of brushes on an axle, while others do not want more than 4 at most. Some wish saws with 8 or 9 teeth to the inch, while others want 10 or 11. With so much discrepancy, we prefer they should, at the time of giving orders, furnish a statement of their wishes, and the manufacturers can fulfil them in every particular. Where it is left to our discretion, we shall make them on the most modern and approved plan. An order can be executed, from the time it is received, in the space of eight or nine weeks, and the Gin in that time placed in the hands of the factor. To be in time for the next crop, all orders ought to be in the hands of the manufacturers by the first or middle of May; except for plantations where they are late in commencing to pick or gin cotton.

N. B.—The Patent Right, for any one of the cotton growing States, will be sold on reasonable terms.
